A two-day training for Early Childhood Professionals that presents and builds upon the philosophy and format of the Creative Curriculum. Specifics on practical strategies that intentionally use play interests and hands-on learning, including math and literacy interest centers. Join Us!

Why Should I Implement the Creative Curriculum in My Program?

The Creative Curriculum

- ◆ illustrates developmentally appropriate practices in the classroom
- ◆ applies a general knowledge of child development with particular knowledge of each individual child and family
- ◆ creates a learning environment for the whole child, supporting social-emotional development as well as academic progress
- ◆ encourages children to experiment, explore, and pursue their own interests
